

IRISH PONY CLUB STANDARDS OF EFFICIENCY
TEST SHEET 2017
'C' STANDARD

OBJECTIVE

- To work towards a secure seat in a balanced position, independent of the reins on the flat and over small fences.
- To know how to correctly communicate with the pony (aids) for riding simple movements.
- To have a knowledge of the care and working of a pony kept in a field and in a stable.
- To be in control of the pony and show courtesy and respect to other people and their property.
- **To be working towards Riding and Road Safety Test.**

RIDING

- Turn-out of pony/horse and rider.
- Mount and dismount correctly.
- Show a balanced and correct position at walk, trot and canter and be able to demonstrate a regular rhythm. First steps of training scale.
- Ride without stirrups at walk and trot.
- Adjust stirrups and girth while mounted.
- Understand the various means of communicating with the pony/horse (aids) for transitions, turns and circles, canter on a named leg.
- Ride on a long and loose rein at walk.
- Know the importance of warm up and cool down.

SHOW JUMPING

- Show a balanced jumping position on the flat and over small fences in preparation for jumping a course.
- Have a knowledge of good practice in the warm up arena.
- Walk and ride a straight and bending line distance not less than 5 strides.
- Jump a short course with a variety of simple fences (**height 80 – 90 cm.**), showing good course lines and awareness of correct leading leg. No combinations.

CROSS COUNTRY

- Show secure balanced position in walk, trot and canter with correct stirrup length.
- Show how to warm up for riding cross country fences.
- Ride over assimilated fences to include narrow (skinny) fences, angled fences and combination fences showing control, balance, correct approach and get away from fence, while maintaining rhythm and appropriate speed.
- Be able to walk and discuss the cross country course and take on board various paces used to safely negotiate the different fences with examiner.
- Ride solid cross country fences of varying types showing control, balance, correct approach and depart from fence while keeping rhythm and appropriate speed in open terrain.
- Maintain control, balance and pace appropriate to area, undulations and ground conditions while maintaining a cross country position.

HORSEMASTERSHIP

- Care and working of a pony/horse kept in a suitable field and/or in a stable.
- Recognise a suitable field for your pony/horse.
- Care of the stable and discuss type of bedding you use.
- Basic knowledge and rules of feeding and watering.
- The importance of roughage: hay/haylage/grass.
- Know what and how much in kilos your own pony/horse eats.
- Grooming – items of grooming kit and show how to use them.
- Be able to care for the tail and put on a tail bandage.
- Shoeing and care of feet – know when a pony/horse needs shoeing and the care of the feet after shoeing.
- Basic care and cleaning of saddlery and check for safety.
- Outline indications of a healthy pony.
- Describe signs of an unwell pony/horse including: colic, laminitis, coughs and colds, and sweet itch.
- Basic knowledge of treatment of minor wounds.
- Explain how to take pony/horse in and out of a horsebox with an assistant and the do's and don'ts' of leaving a pony/horse in a horsebox.
- Discuss the importance of protecting legs while travelling.
- List essential items of a travelling first aid kit for your horse/pony.
- Lead in hand – walking, trotting and turning and taking in and out of a stable.
- Know the name and action of one's own pony's bit and own tack and be able to tack up.
- Put on and take off a rug. Recognise a stable rug, turn-out rug and cooler with advantages and disadvantages of leg straps.
- **Know when to seek advice.**
